

# Awaken to a better sleep

Retail Product Catalogue with Pricing

MAY 2025

The Good Sleep Co aims to add 1 million years\* to patients' lives over the next 5 years by providing the best in class treatment of patients with snoring and obstructive sleep apnea.

We're ambitious with product innovation because we care about improving patients' sleep health. We support practitioners and patients because their health is our business.

**GoodSleepco**

If you would like more info, please contact us: [hello@goodsleepco.health](mailto:hello@goodsleepco.health)

\*Based on peer reviewed evidence, treating patients with obstructive sleep apnea on average increases their life expectancy by 10 years.

# Re-imagining solutions for the sleep-health category

**In-home testing. Evaluation.  
Effective unobtrusive devices.**

## Better sleep is easy

We are committed to providing the best experience possible for people who are treating their snoring or sleep apnea. We created a user App to couple with our devices. Customers can test their sleep at home and trial our range of temporary devices to evaluate whether an oral appliance may work to improve their quality of sleep.

Our range of permanent devices are custom fitted. Please ask if you'd like to see our Clinical Catalogue of products.

**Better sleep for  
better health**

## Innovative products

We create innovative products that result in an overall increase in patients access to ongoing therapy in sleep medicine.

## User experience

We are changing the user experience of oral appliance patients in sleep medicine for the better.

## Tools for practitioners

We create best-in-class tools for practitioners that enable better outcomes for patients.

TEST YOUR REST

# Simple Effective Monitoring

At-home sleep monitoring

**good  
sleep**<sup>TEST</sup>  
HOME SLEEP TEST

**\$149**

RRP

Test your sleep quality in the convenience of your own bed! The Good Sleep Test is simple to use, providing the opportunity to test sleep quickly and easily, in comfort. In conjunction with the Good Sleep Test Specialist Report, a health practitioner can instantly review whether treatment is required.

SKU SLP-TST-GSC

**good  
sleep**<sup>TEST</sup>  
SPECIALIST REPORT

**\$50**

RRP

The Good Sleep Test Specialist Report is beneficial both to diagnose sleep quality, and monitor device titration. A health practitioner can instantly review whether treatment is required. To produce the Specialist Report, a compatible device such as the Good Sleep Test must be used to monitor sleep.

SKU SLP-TST-SSR

IMPROVE SLEEP QUALITY

# Snore no more

Convenient Anti-Snoring Solutions

**hushd**  
AVERA

**\$129**

RRP

Smaller than other devices on the market, the Hushd Avera sets a new standard for 'anti-snore' oral appliance therapy.

The Hushd Avera Anti-Snoring device keeps your airways open while you sleep, allowing for smooth and continuous breathing - giving you and your loved ones some much needed rest from persistent snoring.

This package includes 1 upper and 2 lower splints, enabling you to progress, or 'titrate' your treatment easily, without the constraint of the arches being connected.

SKU HSD-TMP-AVE

**Without Hushd**

Airflow is restricted, resulting in a familiar snoring sound.

**With Hushd**

Air is flowing smoothly, for a better rest.

**SleepCare**  
APP

Download the App

The comprehensive SleepCare App is like no other. It integrates with sleep test devices to remotely monitor your sleep, it provides step by step instructions for the entire range of Good Sleep Co devices and will send helpful reminders in real time.

NO COST

LESS IS MORE

# Better Sleep is Here

Tiny devices that make a huge difference

The Hushd Nasal used with any oral device will improve the efficacy of the oral device!

**hushd.**  
NASAL

2 X DEVICES  
PER PACK

**\$24.95** Hushd Nasal is a Snore-relief Nosepiece. It works by physically opening the nasal passage while you sleep. It can improve sleep quality and reduce snoring.

RRP

SKU HSD-TMP-NAS

**hushd.**  
GUARD

**\$59.95**

RRP

Prevent teeth clenching and grinding. Remove the noise of bruxism and snoring! The Hushd Guard is our Occlusal Splint Nightguard, made from non-toxic silicone with cushioned bite-pads and a flexible band to ensure the splint is secure, but breathing is easy.

SKU HSD-TMP-GRD

**cleaner**  
+ WHITENER

**\$24.95**

RRP

Foaming solution that cleans instantly. Neutralise stains and odours, for a spotless appliance that has a refreshing after-taste.

### Freestanding POS Display

320mm W x 1485mm H x 240mm D

For customers interested in solutions for sleep apnea or snoring, our products work in combination to comprehensively resolve their symptoms.

Hushd is the perfect *affordable* device to trial, before moving to a Hushd Pro permanent device (which is custom fitted).

Questions for customers who could benefit from our devices:

### Are you snoring?

Snoring is caused by the back of the tongue falling back onto the airways and partially blocking the air going into the lungs. People who snore have a high risk of a more serious condition, sleep apnea.

### Do you wake up tired?

If you're waking up tired or getting excessively sleepy during the day then you may have a condition called sleep apnea which drastically affects the quality of your sleep.
