

## ButterFly owner's guide

### What's in the Box:

- A) ButterFly MagSafe Travel Charger
- B) USB-C to USB-C 1 meter (3.3 feet) braided cable
- C) Power Supply with International Plug Adapters
  - 1. Continental Europe
  - 2. UK, Hong Kong, Singapore
  - 3. North America, Japan
  - 4. Australia, New Zealand

### Getting Started:

Choose your appropriate International Plug Adapter, slide it onto the Power Supply and twist until it locks into place.

Plug the USB-C Cable into the port on the Power Supply and ButterFly. Plug Power Supply into ——— nearby wall outlet.

Open ButterFly, and place devices on top to begin charging.

### Charging your Devices:

ButterFly is more flexible than you think, see below to learn all the different devices, positions and ways you can charge with ButterFly.

15W MagSafe Charger for MagSafe compatible iPhones and AirPods

Apple Watch Fast Charger works with all Apple Watch models including Ultra

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

#### CE DECLARATION OF CONFORMITY

Twelve South declares that this product is in compliance with the essential requirements and other relevant provisions of applicable EC directives. For Europe, a copy of the Declaration of Conformity for this product may be obtained by visiting [www.twelvesouth.com](http://www.twelvesouth.com)

This device complies with Industry Canada's licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1.This device may not cause interference, and
- 2.This device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

#### IC RF Statement:

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.
