

Works with any car that already has wired CarPlay.

AirFly Drive turns the CarPlay you plug in today into wireless CarPlay. If a cable gets you CarPlay now, you're set.

Not sure? Check your car in 10 seconds.

1. Plug your iPhone into your car's USB port with a cable.
2. If CarPlay opens on your car's screen, AirFly Drive will work.
3. If nothing happens, your car doesn't have factory CarPlay and no adapter can add it.

Features vary by model year and trim. If your car or year isn't listed, or you're not sure, confirm factory (wired) CarPlay with your dealer or manufacturer before buying.
