

JOYSPRING PRODUCTS:

What Can & Can NOT Be Combined?

Choosing the right supplements for your kiddo can often feel like a pop quiz. That's why, **MOST** of our formulas are designed to work together safely & effectively to support areas like focus, mood, immunity & gut health.

BUT there are a few products that don't play well together. Here's your simple cheat sheet for JoySpring products that can & can NOT be used together.

Use this simple chart to mix and match with confidence:

Why Certain Products Should NOT Be Combined...

While most of our supplements can be used together, a few combinations may be redundant or too strong when taken at the same time. Here's what you should avoid & why:

LINGOLEAP & DETOXZEE

Both contain **Zeolite**, a powerful detoxifier. Taking them together could supercharge detox effects, which might be too much for sensitive tummies. We recommend choosing one based on your child's detox needs.

MOOD MAGIC & MOOD MUNCHIES

Both include **Saffron** to support emotional balance. Doubling up won't double the benefits, so pick your fave or alternate between the two!

GENIUS DROPS & GENIUS GUMMY

Both are brain-boosting powerhouses with Genius Drops featuring Bacopa Monnieri & Genius Gummies featuring Gotu Kola. These ingredients provide the same benefits, so taking both at once is not necessary & may exceed the ideal dosage.

Everything Else? Good to Go!

Both are brain-boosting powerhouses with Genius Drops featuring Bacopa Monnieri & Genius Gummies featuring Gotu Kola. These ingredients provide the same benefits, so taking both at once is not necessary & may exceed the ideal dosage.

Pro Tips for the Best Results

1. TIMING MATTERS! 🕒

Some products work best in the morning, while others (like SleepBerry) shine at bedtime.

2. LISTEN TO YOUR CHILD'S BODY. 🧠💕

Every kiddo is unique! If you notice any sensitivity, you can adjust dosages or swap products as needed.
