Fight the fire from a safe distance and protected location. Heat and impurities may increase temperature and build pressure that can rupture the container, thereby spreading the fire and increasing risk of injuries.

Use water spray fog for cooling. Notify authorities if the liquid enters the sewer or public water.

Hazardous Combustion Products: Oxides of carbon.

Suitable Extinguishing Media: Dry Chemical, Carbon Dioxide, Water, Water Fog, Foam.

Section 6. ACCIDENTAL RELEASE (SPILL MEASURES)

Personal precautions, protective equipment and emergency procedures: Eliminate all ignition sources.

Persons not wearing protective equipment should be excluded from the area of spill.

Methods and material for containment and clean up: Stop the spill at the source. Dike the area to contain the spill. Pump into salvage containers or absorb with inert material.

Environmental procedures: Avoid release to the environment. Inform respective authorities in case of seepage into water course or sewage system.

Reference to other sections: See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.
