SAFETY DATA SHEET

Version: 01
Date: 03/26/2026

CREATOR OF GEL-X®

SECTION 1: FORMULA AND COMPANY IDENTIFICATION

1.1 Product Identifier

Product Name: Extend Gel Fixe
Product Code: CP-EXHTF15

1.2 Recommended Use

Recommended Use: Cosmetic/Personal Care – Gel Polish

1.3 Supplier Details

Supplier: Applied Lacquer Industries Inc.
Address: 16839 Gale Ave, City of Industry, CA 91745

1.4 Emergency Contact

Emergency Contact Phone Number: 626-581-1894

1.5 Manufacturer Details

Manufacturer: Weihao Industries Inc.
Address: 15151 Don Julian Rd, City of Industry, CA 91745

SECTION 2: HAZARDS IDENTIFICATION

"Consumer Products", as defined by the US Consumer Product Safety Act which are used as intended (typical consumer duration and frequency), are exempt from the OSHA Hazard Communication Standard (29 CFR 1910.1200).

This SDS is being provided for safe handling and proper use of the formula.

Please note that the hazard classification provided in the SDS reflects workplace hazard communication requirements as defined under applicable regulations (OSHA). Consumer product labeling, however, must comply with the relevant consumer regulations, which may differ in scope and criteria.

2.1 Classification of the Substance or Mixture

OSHA/HCS Status: This material is considered hazardous by OSHA Hazard Communication Standard (29 CFR 1910.1200).
Classification: Skin irritation - Category 2
Skin sensitization - Category 1
Eye irritation - Category 2A

2.2 GHS Label Elements

Hazard Pictograms:

Signal Word: Warning

Hazard Statements:
(H315) Causes skin irritation
(H317) May cause an allergic skin reaction
(H319) Causes serious eye irritation

Precautionary Statements

General:
(P101) If medical advice is needed, have product container or label at hand.
(P102) Keep out of reach of children.
(P103) Read label before use.
(P264) Wash thoroughly after handling

Prevention:
(P261) Avoid breathing dust/fume/gas/mist/vapors/spray.
(P272) Contaminated work clothing should not be allowed out of the workplace.
(P280) Wear protective gloves, protective clothing and eye or face protection.

Response:
(P302 + P352) IF ON SKIN: Wash with plenty of water
(P305 + P351 + P338) IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
(P332 + P313) If skin irritation occurs: Get medical advice/attention
(P333 + P313) If skin irritation or rash occurs: Get medical advice/attention
(P337 + P313) If eye irritation persists: Get medical advice/attention
(P362 + P364) Take off contaminated clothing and wash it before reuse

Storage: Not Applicable (See Section 7)

Disposal: (P501) Dispose of contents and container in accordance with all local, regional, national and international regulations.

2.3 Other Hazards None known.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Mixture

Non-hazardous ingredients:

INCI	CAS #	EC #	Concentration	Function
Polyurethane-80	139352-65-1	Not Available	80-90%	Binder
Isobornyl Acrylate	5888-33-5	227-561-6	1-10%	Artificial Nail Builder
Hydroxycyclohexyl Phenyl Ketone	947-19-3	213-426-9	1-5%	Light Stabilizer

Only hazardous constituents, in accordance with OSHA Hazard Communication Standard (29 CFR 1910.1200) associated with the product are listed below

INCI	CAS #	EC #	Concentration	Function	Hazard Classification
Bis-Trimethylbenzoyl Phenylphosphine Oxide	162881-26-7	Not Available	1-5%	Light Stabilizer	Chronic Aquatic Toxicity - Category 4 Skin Sensitization - Category 1

SECTION 4: FIRST AID MEASURES

4.1 Description of First Aid Measures

Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Skin Contact: Rinse thoroughly with water after contact. Seek medical attention if irritation develops or persists. Clean contaminated clothing before re-use.

Inhalation: If symptoms develop, move victim to fresh air. Seek medical attention if symptoms persist.

Ingestion: Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting. Clean mouth with water. Call a physician or a poison control center. Never give anything by mouth to an unconscious person.

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Most Important Symptoms and Effects: Not expected to present a significant hazard under anticipated conditions of use.

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed.

Notes to Physician: Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Extinguishing Media

Suitable Extinguishing Media: Water spray, foam, or dry chemical.

Unsuitable Extinguishing Media: None known

5.2 Special Hazards Arising from the Substance or Mixture

Special Hazard: During fire, combustion gases hazardous to health may be formed. May polymerize upon heat Vapor is heavier than air . May move to low area . Decomposition products formed under fire conditions - Carbon oxides Nitrogen oxides , Phosphorous oxide etc.

5.3 Advice for Firefighters

Special Protective Equipment for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, Protective Equipment, and Emergency Procedures

Personal Precautions: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering affected area. Evacuate surrounding areas. Put on appropriate personal protective equipment. Eliminate all sources of ignition. Ensure adequate ventilation. Wear appropriate personal protective equipment. Avoid inhalation of vapors, mists, or gases. Prevent contact with skin and eyes.

Advice for Emergency Responders: Wear appropriate respirator when ventilation is inadequate.

6.2 Environmental Precautions

Environmental Precautions: Avoid dispersal of spilled material and runoff. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and Material for Containment and Cleaning Up

Methods for Containment: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up: Contain spill with an inert non-combustible absorbent material (e.g., dry sand or earth) and place in a chemical waste container for disposal according to local / national regulations (see section 13).

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for Safe Handling

Precautions for Safe Handling: Keep container closed when not in use to avoid contamination. Avoid contact with eyes. Wash hands after handling. Do not eat, drink, or smoke while handling.
The cured product is generally safe for direct contact. When handling the uncured liquid, observe the following precautionary measures: Use only in well-ventilated areas. Avoid inhalation of vapors or mists. Prevent contact with skin and eyes. Wear appropriate personal protective equipment. Refer to Section 2.2 for additional precautionary statements.

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Storage: Store in a cool place. Keep containers tightly closed and stored in a dry, well-ventilated area. This product polymerizes upon exposure to light; therefore, keep the container tightly closed and protected from light when not in use.

Incompatibilities: None known.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control Parameters

Occupational Exposure Values: Not available

8.2 Exposure Controls

Engineering Measures: Provide appropriate exhaust ventilation. Provide safe shower and eye wash fountain.

PPE for Household Settings: This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseen use. No special protective equipment required.

PPE for Non-Household Settings:

Respiratory Protection:
Under normal conditions, general ventilation is typically sufficient. Where a risk assessment indicates the need for respiratory protection, use an air-purifying full-face respirator equipped with multi-purpose combination cartridges (US) or type ABEK cartridges (EN 14387). Respiratory protection should be used as a supplement to engineering controls.

Eye Protection:
Eye protection is not required under normal conditions of use. Where there is a risk of liquid contact with the eyes, appropriate eye protection should be worn.

Body Protection:
Avoid skin exposure. Where necessary, wear suitable chemical-resistant protective clothing.

Hand Protection:
Avoid skin exposure and handle with care. During production or extended handling, wear appropriate chemical-resistant gloves.

Other Protective Measures:
Handle in accordance with good industrial hygiene and safety practices. Wash hands before breaks and at the end of the workday.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic Chemical and Physical Properties

Physical State: Liquid

Color: Transparent

Odor:	Acrylate Resin
Specific Gravity @ 25°C (77°F):	Not available
pH:	7.0
Viscosity:	1000-1500 mPa.s
Flash Point:	Not available
Melting Point/Freezing Point:	Not available
Initial Boiling Point and Boiling Range:	Not available
Heat of Combustion:	Not available
Aerosol	No
Upper/Lower Flammability or Explosive	Not available
Vapor Pressure:	Not available
Vapor Density:	Not available
Odor Threshold:	Not available
Solubility in Water:	Not available
Evaporation Rate:	Not available
Flammability (solid, gas):	Not available
Partition Coefficient: n-octanol/water:	Not available
Auto-Ignition Temperature:	Not available
Decomposition Temperature:	Not available
Oxidizing Properties:	Not available

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

No specific test data is available.

10.2 Chemical Stability

No specific test data is available.

10.3 Possibility of Hazardous Reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid

Extremely high or low temperatures. Keep away from open flames, hot surfaces, sources of ignition. Do not exposure to moisture and Light until used.

10.5 Incompatible Materials

Strong oxidizing materials

10.6 Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced. Thermal exposure may cause polymerization. Vapours are heavier than air and may travel along the ground or collect in confined or low areas. Under fire conditions, hazardous decomposition products such as carbon oxides, nitrogen oxides, phosphorus oxides, and other toxic fumes may be generated.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on Toxicological Effects

Inhalation: No information available.

Skin Contact:	Repeated or prolonged excessive exposure may cause irritation.
Ingestion:	No information available.
Eye Contact:	Irritating to eyes.
Acute Toxicity:	No information available.
Skin Corrosion / Irritation:	Repeated or prolonged excessive exposure may cause irritation.
Serious Eye Damage / Eye Irritation:	Irritating to eyes.
Skin Sensitization:	Repeated or prolonged excessive exposure may cause irritation.
Respiratory Sensitization:	No information available.
Germ Cell Mutagenicity:	No information available.
Neurological Effects:	No information available.
Reproductive Toxicity:	No information available.
Developmental Toxicity:	No information available.
Teratogenicity:	No information available.
STOT - Single Exposure:	No information available.
STOT - Repeated Exposure:	No information available.
Target Organ Effects:	No information available.
Aspiration Hazard:	No information available.
Carcinogenicity:	No information available.

SECTION 12 ECOLOGICAL INFORMATION

12.1 Toxicity
Hazards: No information available.

12.2 Persistence and Degradability
Persistence and Degradability: No information available.

12.3 Bioaccumulative Potential
Bioaccumulative Potential: No information available.

12.4 Mobility in Soil
Soil / Water Partition Coefficient: No information available.
Mobility: No information available.

12.5 Results of PBT and vPvB Assessment
PBT: No information available.
vPvB: No information available.

12.6 Other Adverse Effects
Other Adverse Effects: May cause adverse effects in the aquatic environment. Do not allow uncontrolled release into drains, waterways, or the environment. Discharge only in compliance with applicable governmental regulations.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods
Disposal Methods: Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated Packaging: Disposal should be in accordance with applicable regional, national and local laws and regulations.

SECTION 14: TRANSPORT INFORMATION

	UN Number	Proper Shipping Name	Transportation Hazard Class	Packaging Group	Environmental Hazard
DOT	Not regulated	Not regulated	Not regulated	Not regulated	Not regulated
IMDG	Not regulated	Not regulated	Not regulated	Not regulated	Not regulated
IATA	Not regulated	Not regulated	Not regulated	Not regulated	Not regulated
TDG	Not regulated	Not regulated	Not regulated	Not regulated	Not regulated

SECTION 15: REGULATORY INFORMATION

15.1 US Federal Regulations

TSCA 8(a) CDR Exempt/Partial Exemption/United States Inventory TSCA 8(b): All components of this product are listed, exempted, or excluded from listing on the U.S. Toxic Substances Control Act chemical substance inventory.

SARA 313: Not applicable for consumer use.

CERCLA: This material does not contain any components with a CERCLA RQ.

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61): Not applicable for consumer use.

U.S. State Regulations (RTK): Not applicable for consumer use.

Food and Drug Administration (FDA): The product described in this Safety Data Sheet is regulated under the Federal Food, Drug, and Cosmetics Act and is safe to use as per directions on container, box or accompanying literature (where applicable).

California Proposition 65: Based on the available information provided about the formulation, this formula does not contain an ingredient listed on Prop 65.

SECTION 16: OTHER INFORMATION

Legend:

CAS = Chemical Abstracts Service
CERCLA = Comprehensive Environmental Response, Compensation, and Liability Act
DOT = Department of Transportation (USA)
GHS = Globally Harmonized System of Classification
IATA = International Air Transport Association
IMDG = International Maritime Dangerous Goods
NIOSH = National Institute for Occupational Safety and Health
OSHA = Occupational Safety and Health Administration
PBT = Persistent bioaccumulative and Toxic
PEL = Permissible Exposure Limit
PPE = Personal Protective Equipment
REL = Recommended Exposure Limit
SARA = Superfund Amendments and Reauthorization Act
STEL = Short Term Exposure Limit
STOT = Specific Target Organ Toxicity
TDG = Transportation of Dangerous Goods
TLV = Threshold Limit Value
TSCA = Toxic Substances Control Act
TWA = Time-Weighted Average
vPvB = very Persistent and very Bio-accumulative
