## BEAUTY NEWS *NYC*

For a sublime Spring foundation try the unique **Crunchi Beautifully Flawless Foundation**, which melts into the skin like cream to create a satin and semi-matte finish that evens out with a softening, perfecting effect. Your skin never feels dry or in need of hydration because the formula works as a hydrator with ingredients such as Mushroom Extract, Rosehip, Jojoba, Glycerin, Aloe, and Sunflower seed. The genius of this product is that it will adapt to your skin's needs whether your skin is oily or dry. You can add it on top of your favorite oil or moisturizer for more hydration in winter temperatures or simply apply alone. A cult favorite, it is the one you need for your skin all year round.

To diminish pores, minimize lines and control oil while softening and freshening up the complexion, the **Crunchi Translucent Finishing Powder** is your tool for Spring. It creates a "veil"-like evanescent finish and helps set the foundation for 18 hours while balancing the skin and keeping it hydrated. Enjoy a naturally softer and more even complexion with no flaws. Packaged in a plastic-free jar made from 100% plant-based and renewable ingredients including bamboo, rice husk, coconut shell, and green tea leaves.
