

# POWERFUL BLUETOOTH® PARTY SPEAKER TO KEEP THE PARTY PUMPING

The BlueAnt X6 delivers massive sound with 160 Watts of Pure Party Power.

The X6 sound signature has been developed and tuned by studio engineers and features an integrated highly efficient class D amplifier that drives the thumping bass and stadium filling volume.

It's not just about the sound but also the look – the X6 also features 15 LED light modes to really set the mood and create the perfect party atmosphere for any occasion. Channel your inner diva with the included two bonus microphones, the X6 has inputs where you can choose to rock out on a guitar or plug in the mics and get your karaoke groove on.

With its long-lasting battery you can keep the party going for hours, but don't worry, we've got you covered if you want to pull an all-nighter simply plug in for continuous playback.

If one X6 is not enough, you can double the volume by pairing two X6's in Duo mode to take you right to the front row.
