# PUMP AIR LITE 3

True Wireless Earbuds

User Manual V1.0

# Welcome

Please read through this manual to get the most out of your Pump Air Lite3.

## Inside the box

1 x Pump Air Lite 3 True Wireless Earbuds

---

3 x Sizes of ComfortSeal Tips

---

User Manual Pack

1 x USB-C to USB-C Charge Cable

# Get to know your Pump Air Lite 3

Item	Function
1	Charging case LED lights
2	Charging port
3	Multifunctional (MFB)/Command button
4	Earphone Mic
5	Magnetic charging pins

# Charging your Pump Air Lite 3

1. Open the charging case and remove the earbuds. Be sure to take off the paper tags covering the charging pins.

2. Place earbuds in the case to charge.

3. Close the lid

## Charging your Pump Air Lite 3 cont'd...

1. Use the supplied charging cable. Please use only 5V/1A chargers.

2. The Pump Air Lite 3 takes 2.5hrs for a full charge.

3. The Pump Air X3 charging case, takes 2.5hrs for a full charge. The charging case should charge the earbuds 4 times.

# Charging your Pump Air X3 cont'd...

The charging case features a dual-colour LED that indicates the charging status and battery level.

While charging, the LED will turn solid white and periodically flash red to indicate the charging progress:

**1 flash** 25%, **2 flashes** 50%, **3 flashes** 75%, **4 flashes** 76-100%

Once the LED turns solid red, the case is fully charged and can be unplugged.

## Checking case battery level when not charging

To check the battery level when the case is not charging, remove both earbuds and place them back into the case. The LED will periodically flash red to indicate the current charge level, with the number of flashes as described above.

## Charging the earbuds

Each earbud has an LED that will light up solid white during charging. The LED will turn off once the earbuds are fully charged. Please note that the left and right earbuds may charge at different rates.

# Let's get started | Pairing

In order to get started using the Pump Air Lite 3, we need to pair it to your phone.

1. Remove both earbuds from the charging case, and put them in your ears.
2. When the earbuds are turned on for the first time, they will automatically enter Bluetooth pairing mode.
3. After a few seconds, you will hear the words, *'Bluetooth pairing.'*
4. On your phone, search for the Bluetooth device named, *'BlueAnt Pump Air Lite3'* and select it to pair. You should hear the words, *'Connected.'*
5. The earbuds will automatically reconnect to your phone whenever you remove them from the charging case. They will disconnect and power off when placed back in the case.

## Pairing with a new device

- If you need to pair the earbuds with another phone, first turn off Bluetooth on the currently connected phone.
- The earbuds will announce, *'Disconnected'*, followed shortly after by, *'Bluetooth pairing.'*
- On the new phone, select *'BlueAnt Pump Air Lite3'* to complete the pairing.

**N.B.** If your earbuds are showing up as two separate devices, it means they have become disconnected from each other. Please follow the instructions on *Page 11* to re-sync them together.

# Let's get started | Fit

To ensure the best sound, you need the best fit. Having the best fit creates a seal and enhances the bass performance.

The diagram is how the earbuds should sit in your ear. We have included 3 sizes of ComfortSeal tips (**small**, **medium (fitted)**, **large**), so you get an even more snug fit and to ensure the earbuds never fall out. It's best to try out each of the sizes to get the best fit.

*N.B. The earbuds are preinstalled with the medium sized tips.*

# Button Functions

## Music

Tap **MFB** once to Play/Pause

Double tap the right **MFB** to skip forward

Double tap the left **MFB** to skip backward

---

## Siri/Google

Tap either **MFB** three times to Activate/Cancel Siri/Google

# Button Functions cont'd...

## Call control

Tap either earbud **once** to answer a call

Double tap either earbud to end a call

Press and hold either earbud to reject a call

---

## Volume

When music is playing or on a call

Press and hold the right **MFB** to increase volume

Press and hold the left **MFB** to decrease volume

# Power

1. When you remove the earbuds from the charging case, they will automatically *power on* and try to reconnect to the last phone they were connected to.

2. When you place the earbuds into the charging case, they will automatically *power off*.

3. To *power on* without the charging case, *press* and *hold* the **MFB** for 2s.

To *power off* without the charging case, *press* and *hold* each **MFB** earbud for 6s.

4. To pair without the charging case from off, *press* and *hold* the **MFB** on one earbud for 5s, and then pair with your phone. Then *press* and *hold* **MFB** on the other earbud for 2s to power it on.

- The earbuds announces when the battery is low, when there is about 30 mins of play time left.

- The earbuds features an iPhone battery meter.

- **Mono Operation:** It is possible to use the earbuds as a mono headset. Simply remove one of the earbuds from the charging case.

# Buds lost connection?

If your earbuds become disconnected from each other and show up as two separate devices on your phone, or if you are replacing a lost earbud, follow these steps to re-sync them:

1. Remove any existing pairing of the earbuds from your phone.

- You should not have any 'BlueAnt Pump Air Lite3' showing up under paired devices on your phone.
- Ignore anything showing up as an available device at this point.

2. Important: ensure your charging case is fully charged (the battery indicator LED is periodically flashing red 4 times).

1. Make sure your charging case is fully charged.

2. Place earbuds in the case and wait for a solid *white* LED on both buds.

If the LED is flashing, adjust the earbuds to ensure proper contact until the LED is solid.

3. Press and hold the MFB button on *both* earbuds simultaneously for 10s, until you see each earbud flash *white* twice. If you are having trouble achieving the 2 fast flashes, make sure you are starting with a *solid white* LED.

Sometimes, it may require leaving the earbuds out of the case for 10mins to deplete the battery a little so they don't switch off quickly after being inserted back into the case.

If only one earbud flashes 2 times, remove and re-insert both earbuds, then restart the process.

## Buds lost connection? cont'd...

4.

Once both earbuds flash 2 times, remove them from the case, wait 5s for re-syncing to occur for bluetooth devices on your phone.

5.

Scan for bluetooth devices on your phone.

# Legal

**PLEASE PROTECT YOUR EARS.** BlueAnt devices can reach volumes above 100 decibels. Prolonged use at high volumes may affect your hearing capacity and may result in noise induced hearing loss (NIHL). Please read the enclosed safety card for information about the safe use of BlueAnt products. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth®SIG, Inc. and any use of such marks by BlueAnt Wireless is under license. Android is a trademark of Google Inc., Apple, iPhone and Siri are trademarks of Apple Inc., registered in the U.S. and other countries. BlueAnt and other trademarks are trademarks of BlueAnt and other organisations and may not be used without permission. The BlueAnt logo is registered in the U.S. Patent and Trademark Office and globally with the World Intellectual Property Organisation under the Madrid protocol.

By using this product, you agree to the terms and conditions listed on the BlueAnt website: [www.blueantwireless.com](https://www.blueantwireless.com)

# Sweatproof

The Pump Air Lite 3 Earbuds are IP55 sweatproof, while the charging case is not. Please take care to avoid moisture and liquids, entering the charging case.

# **SAFETY INFORMATION AND WARRANTY TERMS**

## **Important Safety Information**

**PLEASE READ THIS ENTIRE DOCUMENT CAREFULLY, BECAUSE IT CONTAINS IMPORTANT INFORMATION ABOUT THE SAFE USE OF BLUEANT DEVICES**

**WARNING - PROTECT  
YOUR HEARING**

**BLUEANT DEVICES CAN  
REACH VOLUMES ABOVE  
100 DECIBELS.**

**ONLY CHARGE WHEN DEVICE IS CLEAN AND DRY**

**PROLONGED USE AT HIGH  
VOLUMES MAY AFFECT YOUR  
HEARING CAPACITY AND MAY  
RESULT IN NOISE INDUCED  
HEARING LOSS (NIHL).  
TURN OFF THE POWER TO  
YOUR DEVICE WHEN NOT  
IN USE.**

Please ensure that the device and any associated components such as ear gels or chargers, are stored safely and that any packaging or unwanted contents are disposed of thoughtfully. Do not place the product on the floor or leave it in a place, where young children could access it, or someone could trip over it

### **Using Ear Gels**

Your BlueAnt earbuds will come with eargels or foam tips that are designed to provide a secure fit in your ear, while providing high quality audio

- Ear gels and tips are designed to sit comfortably in your ear and should not be forced into your ear at any time. If you have trouble fitting the ear gel or foam, please refer to the owner's manual for correct insertion and usage information.

Always make sure that the ear gel or foam is fitted securely to your device, before placing it in your ear.

# WARNING

**NOTE THAT NON COMPLIANCE, MISUSE OR FORCING THE EAR GEL OR FOAM MAY CAUSE DAMAGE TO YOUR EAR CANAL EARDRUM, OR MAY OTHERWISE CAUSE BODILY HARM**

## Care and Handling

Your BlueAnt Bluetooth device is a precision engineered instrument. To ensure its ongoing performance, you should look after it as you would any quality consumer electronic product, and use it in accordance with the instructions.

BlueAnt recommends that you take the following precautions.

- Avoid leaving your device in direct sunlight, such as on the dashboard or console of a car or truck. Do not leave your device unattended in your vehicle.
- Do not leave your device, or use your device, in any area where the temperature may exceed 60 degrees Centigrade (140 degrees Fahrenheit), such as inside a closed car on a hot day. Remember that on a hot day, the temperature inside a closed car may be significantly higher than the outside air temperature.
- Do not leave your device, or use your device, in any area exposed to humidity, dust, soot, other foreign objects, smoke, or steam as this may cause your device to malfunction.
- Do not use any household or industrial grade detergents or cleaners to clean your device. If your device becomes dirty or smeared, in most instances, a wipe with a dry or slightly damp cloth should be sufficient to clean it.

- Do not leave your Bluetooth device, plugged into a wall or car charger for long periods after it is fully charged. BlueAnt does not recommend long periods of continued charging.
- Before charging your BlueAnt device, make sure that the AC outlet, adaptor and cable are not damaged. If you notice any abnormalities, seek advice from a qualified professional.
- If travelling internationally, ensure that your BlueAnt wall or car power adapter is approved for use in the country where you plan to use it and that the adapter voltage is suited to the local power supply.
- Should a fault develop with your BlueAnt product, contact BlueAnt for advice on how to proceed. Do not attempt to repair or alter any BlueAnt product yourself.

## Approved Accessories

The use of accessories not approved by BlueAnt, including but not limited to batteries, antennas, wall adapters, car chargers, ear gels, foam tips and convertible covers, may cause your BlueAnt device to malfunction, or in the case of non-approved electrical accessories, may cause the device to exceed RF energy exposure guidelines. Use only 5V/1A chargers.

Use of non approved accessories will void your device's warranty. For a list of approved BlueAnt accessories, visit our website:

**[www.blueantwireless.com](http://www.blueantwireless.com)**

## Electromagnetic Interference

Nearly every electronic device is susceptible to electro-magnetic interference (EMI) if inadequately shielded, designed, or otherwise for electromagnetic compatibility.

Similar to a mobile phone, your BlueAnt device is a low power transmitter/ receiver and is covered by regulations in any facility where posted notices instruct you to do so. These facilities may include hospitals or health

care facilities that may be using equipment that is sensitive to external RF energy.

- When instructed to do so, turn off your BlueAnt device when you board an aircraft. Any use of a mobile device must be in accordance with applicable laws, regulations and airline crew instructions.
- Some Bluetooth devices may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer or physician to discuss alternatives.

- If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your doctor or physician may be able to assist you in obtaining this information.
- If you are in doubt whether your BlueAnt device or mobile phone can be safely turned on or used, please consult an authorised person in the location you want to use your BlueAnt device. If no authorised person is available, or you remain uncertain, BlueAnt recommends that you turn off your Bluetooth device and any mobile phones unless they are required in an emergency situation.

## BlueAnt Limited Global Warranty

This product is covered by BlueAnt's limited global warranty for one (1) year from the date of purchase, or if later, the date of delivery.

Please refer to the [warranty.blueantwireless.com](http://warranty.blueantwireless.com) for full terms and conditions.

# Caring for the environment by recycling

Do not dispose of Bluetooth accessories, such as chargers or headsets, with your household waste. In some countries or regions, collection systems are set up to handle electrical and electronic waste items, and may prohibit or restrict how such items are disposed of. Check the laws and regulations for your areas to determine how to properly dispose of such items. Contact your regional authorities for more details.

# FCC Information

## FCC INFORMATION (for US customers)

### NOTE:

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
- However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio / TV technician for help. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
    - (1) this device may not cause harmful interference, and
    - (2) this device must accept any interference received, including interference that may cause undesired operation.

### WARNING:

This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information go to: [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

- Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
