

Supra S7 Big Box KeySafe™

Supra S7 Big Box KeySafe™

The Supra S7 Big Box KeySafe™ really lives up to its name. The super-sized internal compartment can hold more than 7 Yale or Chubb style keys, as well as access cards and fobs. Get to store keys quickly with the easy-to-use push button mechanism, that doesn't rely on a power source or internet connection to function. This large key lock box is a reliable and affordable choice.

Strong construction

Built from sturdy Zinc Alloy, the Supra S7 is rust and weather resistant. With a complimentary weather cover for even more protection, Supra S7 is perfect for indoor and outdoor use.

Supra S7 Big Box KeySafe™ features & benefits:

EASY INSTALLATION: Anchor bolts allow **quick, hassle-free mounting**, no additional screws and plugs required.

LARGE INTERNAL SPACE: Holds **up to 7 keys, key fobs and access cards**

1,000+ code combinations

The Supra S7 has over 1000 possible codes that can be changed easily with the code changing tool included, as often as needed.

Simple installation

The Supra S7 comes with shield anchor bolts that securely fix the key box to a wall without the need for wall plugs.

Did you know?

The Supra S7 Big Box KeySafe™ features the largest internal vault in our range, making it ideal for offices, schools and commercial properties with a large number of keys.

WIDE RANGE OF CODE CONFIGURATIONS: **Over 1000 possible combinations** when using the recommended 5 – 7 digits. Code can be changed unlimited times to maintain security.
