P500 Pro Key Safe

Original Police Preferred P500 Pro Key Safe

P500 Pro Key Safe – a police preferred, Secured by Design, outdoor wall-mounted key safe.

UK's first police preferred key safe with anti-tamper protection

The P500 Pro is the first mechanical key safe in the UK to feature an anti-tamper plate, stopping unauthorised code changes. It holds the LPCB LPS1175 Issue 8 A5 security rating and meets the 'Secured by Design' police preferred Specification, offering trusted protection for your keys.

Triple-layer reinforced security

Constructed from thick, hardened zinc alloy with a stainless-steel reinforced back plate, internal steel vault liner, and anti-saw and anti-pry elements, the P500 Pro key safe offers reliable security.

How can P500 Pro Key Safe be used?

The P500 Pro Key Safe has many applications including access for home healthcare and home services, remote sites, property management, equipment storage, after-hours delivery, alarm or emergency access, secure storage for spare keys, emergency entry and holiday homes.

Installing P500 Pro Key Safe

Four heavy-duty, self-tapping masonry screws are included for mounting the key safe on brickwork, concrete, stone and single skin walls.

To maintain the security accreditation, P500 Pro Key Safe should only be installed on flat brick, blockwork or good quality concrete. If installed onto render, the security accreditation will be invalid.
