WARNING!

- **Warning** : Be aware of the risk of open fire and other sources of strong heat, such as electric bar fires, gas fires, etc. in the vicinity of the cot.
- **Warning** : Do not use the cot if any part is broken, torn or missing and use only spare parts approved by the manufacturer.
- **Warning** : Do not leave anything in the cot or place the cot close to another product, which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords, etc.
- **Warning** : Do not use more than one mattress in the cot.

WARNING!

- The lowest position is the safest.
- The base should always be used in the lowest position as soon as the baby is old enough to sit up.
- The thickness of the mattress shall be such that the internal height (surface of the mattress to the upper edge of the cot frame) is at least 500mm in the lowest position of the cot base and at least 200mm in the highest position of the cot base.
- Minimum size of mattress to be used with the cot (the length and width shall be such that the gap between the mattress and the sides and ends does not exceed 30mm).
- All assembly fittings should always be tightened properly and fittings should be checked regularly and retightened as necessary.
- To prevent injury from falls when the child is able to climb out of the cot, the cot should be converted to the cot bed.
