What is a hygienic seal?

What is a hygienic seal?

Because a breast pump is a personal use medical device, each is sealed by their manufacturer with something called a "hygienic seal".

Per FDA regulations, we are unable to accept a return or exchange once the hygienic seal has been opened.

Each manufacturer seals their product differently. Please skip to your manufacturer's page to see yours!

TABLE OF CONTENTS

Ameda	4
BabyBuddha	5
Elvie	6
Evenflo	7
Lansinoh	8
Medela	9
Spectra	10
Willow	11

Ameda considers their "hygienic seal" to be the clear tape on the outside of the pump box. Once the tape has been broken and the box has been opened, the hygienic seal is no longer intact.

Ameda Mya Joy

Ameda Mya Joy Plus

BabyBuddha considers their "hygienic seal" to be the clear wrap on the outside of the pump box. Once the wrap has been broken, the hygienic seal is no longer intact.

BabyBuddha Portable Breast Pump
