FDA Cleared for Children and Adults to:

- ✓ Measure Sleep Quality (Screen Everyone)
- ✓ Evaluate Sleep Disorders (Sleep Apnea & Insomnia)
- ✓ Diagnose Sleep Apnea (Obstructive & Central)
- ✓ Management of Sleep Disorder Breathing

Comprehensive Sleep Evaluation

Convenience of a Consumer Wearable

No consumables. No wires.

Lowest Cost and Most Scalable Sleep Test on the Market

Multi-night testing with 6-channel output for diagnostic accuracy with flexible subscription data plans.

Clinical Accuracy on par with Polysomnography (PSG)

Automated AHI comparable to manually scored AHI from PSG.

SleepImage has been featured in over 90 peer reviewed publications and is explained in chapter 202 of the primary medical textbook on sleep medicine (Principles and Practice of Sleep Medicine).

SleepImage works with a National Network of Board-Certified Sleep Physicians for tele-health consultation, interpretations, diagnosis and sleep disorder management.

Unlike other home sleep tests, the peer reviewed articles have demonstrated that the SleepImage output reflects health outcomes such as blood pressure control and brain health. Beyond sleep apnea diagnosis, it may be used to measure health during sleep as a tool for health maintenance and disease management.

1 Patient wears the Ring during sleep with no consumables in the comfort of their home.

2 Start & Stop Sleep Study on Patient's Smart Phone, using the free SleepImage App.

3 Cloud-based technology. Fully analysed, data is available in minutes.

Good Sleep^{co}

How to order tests via ResDent

Patient monitoring overnight

→ Patient starts test

Patient puts the ring on, and starts the test before bed

→ Patient ends test in morning

When patient wakes up they take the ring off and end the test

→ Email notification - Results ready

When the results are ready you will be notified by email

→ Show in ResDent

Autoscore plus specialist report options

→ Access the report in ResDent

If you are waiting on a specialist report this may take a few more days but don't worry, you'll get these back soon enough
