

## Vvolt Stellar Series: Connect to the Application

Here are the steps for connecting your first-generation Vvolt ebike to the Xplova Ebike Assistant Application. Note: This is not relevant to second-generation Vvolt ebikes.

Tools required:

- iOS or Android Device connected to the *internet*
- Fingers

Expected time: 2 minutes

1. Download the Xplova Ebike Assistant Application
  - a. [iOS](#)
  - b. [Android](#)
2. Power on your ebike
3. Connect your device to the handlebar display via Bluetooth:
