DESCALE REGULARLY

CLEANING AND CARE

Dualit recommends cleaning your baby bottle warmer after every use

Before cleaning make sure the machine is switched off, unplugged and allowed to cool.

Do not submerge the Base, Power Cord or plug into water or other liquid, or position under a water tap

Do not use sharp, abrasive or aggressive cleaning agents, bleach or scouring pads to clean the Baby Bottle Warmer. The use of such cleaning implements may affect the life of the Baby Bottle Warmer.

IMPORTANT NOTICE: PRODUCT FAILURE DUE TO THE BUILD-UP OF LIMESCALE IS NOT COVERED BY GUARANTEE.

The Baby Bottle Warmer needs to be descaled regularly. As a minimum, it is recommended that you descale once a month in soft water areas, every 21 days in medium water areas and every 14 days in hard water areas. You can check your water hardness with your water provider. Wear rubber gloves. Do not use on marble surfaces. Do not put descaler bottle on work surfaces. Wipe descaler bottle after use.

the mains and allow to cool down

completely before cleaning.

Unplug the Baby Bottle Warmer from the mains and allow to cool down completely before descaling.

Pour 100ml of just-boiled water into the Water Bath, then add 50ml of Kilrock Espresso & Coffee Machine Descaler, This can be
