 **PRECAUTION:**

ALWAYS read and follow the instructions before use. ALWAYS use the unit according to the manufacturer's guidelines. ONLY have the unit serviced by the manufacturer. ONLY use the unit in a manner as intended by manufacturer.

LIGHTWEIGHT FOLDING BED  
PARTS

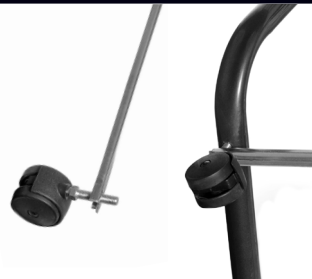

LIGHTWEIGHT FOLDING BED  
ASSEMBLY

**1** Remove the bed and its components from the carton, then lay the bed on its side and fold out the center legs.

**2** Insert one of the wheels (A) into one of the center leg braces (E) so that the curved side of the brace is facing down at the wheel. Then, insert this assembly into one of the holes at the bottom of the bed's center legs, so that the threaded bolt comes through the top as shown. Secure the top of the threaded bolt with a wheel nut (B).

LIGHTWEIGHT FOLDING BED  
ASSEMBLY

**3** Rotate the center leg brace over to the other center leg and line up the holes so that another wheel can be passed through. Then insert another wheel and secure it in place with another wheel nut as shown.

**4** Repeat for the opposite side of the center legs and stand the bed up when you're done.

**5** Lift up the outer legs on each side of the folded bed and clip on the floor pads (C) before you enjoy sleeping on your new bed!

INSTRUCTIONS FOR OPERATION

**1** Extend the outer legs on one side of the bed and clip one side of the outer leg braces (F) to the leg, and the other side to the top of the bed frame as shown. Repeat for the legs on the other side.

**2** Open the bed by releasing the locking clip (D) at the top with one hand and gently letting the bed fold out with the other.

THAT'S IT! YOU'RE DONE. ENJOY YOUR REST.
