Identifier (e.g. patient name, abbreviation)

All measurements must be entered to ensure proper treatment.

- Upper arm: Measure the circumference at least 10 cm above the crease of the elbow (e).
- Base of the upper arm
- Crease of the elbow
- Middle of the forearm muscle
- Base of muscle: Measure the circumference at least 12 cm below the crease of the elbow (e).

Notes:

- Take measurements with a slight flexion (30°).
- The starting point to determine the length measurements is the crease of the elbow (e).
- The custom-made solution does not have a strap.
