| е   | Middle of knee   |                       | ſ   | l   |   |
| d   | Narrowest point below the knee   |                       |   |   |   |
| С   |  | ce: Measure the circ  | cumference at least 12 cm   |   |   |
| b° Calf circumference 18 cm below the middle of the knee (e)  |  |                       |   |   |   |
| Notes:  Custom-made solutions are only available in the color titan.  Take measurements with a slight flexion (30°).  The length is measured on the outside of the leg.  The selection of the short/long version depends on the individual measurements of the patient. The long version is recommended for patients from a height of 1.80 m.  The following minimum circumference measurements are required for supplying the product:  f (14 cm above the knee): at least 38 cm e (middle of knee): at least 32.5 cm c (12 cm below the knee): at least 28 cm |  |                       |   | Stamp  Customer no.   |   |
