

# Leather Handle Guide

## How to attach the leather side handle?

Open the lining of the suitcase with the puller. Arrow in the image below shows the location of the puller.

Unscrew the screws shown below (located on the right side of the frame)

- Whilst unscrewing from the inside, hold the handle from the outside to support the screw.
- Please do not discard the screws as they will be needed when inserting the new handle.

Align and screw your new Carl Friedrik handle and rezip the lining.
