The BabyBuddha Breast Pump offers:

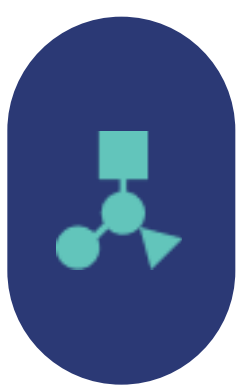

Portability

- At only 6.8oz, the BabyBuddha pump is smaller than the average smartphone.
- Our battery powered pump can be charged via any standard USB cable port and last up to 4 pumping sessions once fully charged.
- Simply hang the compact pump around your neck using the included lanyard and gain the freedom to multi-task.

Strength

- BabyBuddha is the smallest and most portable breast pump to achieve consistent hospital grade strength, ranging from 53-320 mmHg.
- This increased range allows you to empty your breasts more quickly and efficiently during a pumping session.

Adaptability

- The BabyBuddha Breast Pump is fully customizable, so there's no need to purchase multiple pumps. Every woman is different. Use any accessories or components that work best for you and your body.
- Component hacks are available on www.babybuddhaproducts.com and help with this is available through our Customer Support team.

Comfort

- BabyBuddha has 15 different comfort settings that can easily be adjusted with the trackball using a simple swivel of the thumb. Enjoy 6 levels of stimulation mode and an additional 9 levels of expression.
- The BabyBuddha pump has an extra-soft cushion to prevent nipple soreness.
- The anti-backflow design eliminates the need to uncomfortably lean forward.

Safety

- The BabyBuddha pump was crafted around safety. With a closed system that prevents breast milk from flowing back into the pump, milk is protected from contamination.
- Our pump was designed with 100% BPA-free construction to eliminate exposure to harmful toxins.
- BabyBuddha is FDA Approved.

Support

- BabyBuddha offers a 2-year warranty on manufacturing defects.
- The BabyBuddha Team can repair most damage at no cost (unless damaged is caused by milk in the pump).
- Customer Service typically responds within 1 hour.
- Our trained lactation consultants are on call and available for customers who need additional help.

Ask your healthcare provider about BabyBuddha. Give yourself the power to grow throughout your pumping journey!
